

(Sent via email to Emissions Inventory Subcommittee Members on 1-27-03)

Members of the Subcommittee:

We will meet from 2 p.m. to 3:30 p.m. directly following the January 30, 2003, meeting of the California Air Resources Board Agricultural Advisory Committee for Air Quality being held at:

Harvest Hall Multi-Purpose Room ABC
Stanislaus County Agricultural Center
3800 Cornucopia Way, Modesto

We will discuss the materials that were sent out to you on Thursday January 23, 2003, focusing on:

1. Pesticide inventory -- base year methodology and forecasted emissions
2. Proposed new growth surrogates -- DWR Bulletin 160 series
3. Also, we did not cover the following agricultural sources at our November 7, 2002 meeting: agricultural burning, agricultural food and processing, and livestock wastes. We can discuss these categories if desired.

If you have any questions, please contact Bob Fletcher, Chief of the Planning and Technical Support Division at 322-5350."
